

# NAGESH SURESH BHUTKADE

Full Stack Developer • Team Lead

 nagesh\_32@yahoo.com  +91-9271005359  Palghar, Maharashtra(IN), 401404

## PROFESSIONAL SUMMARY

Accomplished Full Stack Developer and Team Lead with 10+ years of experience designing, building, and scaling enterprise-grade web applications. Expert in **Laravel** and **Angular** ecosystems, cloud infrastructure (AWS, Azure), Docker, and modern databases. Proven leader in managing teams, SDLC, and delivering multi-tenant SaaS solutions with a focus on performance and clean code, while leveraging cutting-edge AI-assisted tools to accelerate development workflows.

## CORE COMPETENCIES

 **Backend** PHP 8, Laravel 11+, GraphQL, REST, Java 8+  
 **DevOps** Docker, AWS S3, Azure Blob, Nginx, CI/CD, Git  
 **AI-Assisted Dev** Claude Code, DeepSeek, GitHub Copilot (VS Code)

 **Frontend** Angular 14+, RxJS, NgRx, TypeScript, ES6, HTML5, CSS3  
 **Architecture** Microservices, MVC, OOPS, Multi-Tenancy

 **Databases** MySQL, MSSQL, MongoDB, Redis  
 **Methods** Agile, Scrum, SDLC, Code Reviews

## PROFESSIONAL EXPERIENCE

**Team Lead** Sept 2017 – Present

**Oneleap Solution Pvt Ltd • Mumbai**

- ▶ Led a team of 5 developers delivering enterprise projects using Angular 14+, Laravel 9+, and GraphQL.
- ▶ Architected microservices and reduced endpoint complexity by 40% via GraphQL API aggregation.
- ▶ Implemented CI/CD pipelines, cutting release times by 60% and reducing post-production bugs by 30%.
- ▶ Managed AWS S3 and Azure Blob Storage infrastructure, ensuring 99.9% uptime.
- ▶ Optimized performance with Redis caching and MySQL tuning, lowering server load by 25%.
- ▶ Championed the adoption of AI-assisted development tools (Claude Code, DeepSeek) within the VS Code environment to streamline code generation, refactor legacy modules, and accelerate complex debugging tasks.

**Software Developer** Jan 2015 – Apr 2016

**Rockdude FinPro Pvt Ltd • Mumbai**

- ▶ Built a secure CRM using Laravel and OAuth2, supporting concurrent users.
- ▶ Optimized data imports by 70% using database chunking and queue jobs.
- ▶ Developed REST APIs for real-time integration with third-party banking systems.

**PHP Programmer** Feb 2014 – Dec 2014

**Affordable Web Solution Pvt Ltd • Mumbai**

- ▶ Built dynamic web applications using PHP and MySQL in an Agile environment.
- ▶ Refactored legacy code and optimized SQL, improving page load speeds by 35%.

**Jr. Java Programmer** Sept 2012 – Feb 2014

**Sudarshan Software • Mumbai**

- ▶ Developed inventory systems using J2EE, Servlets, Struts, and MySQL.
- ▶ Ensured data integrity through robust SQL-based database operations.

## NOTABLE PROJECTS

---

### ClearShip – Logistics & Supply Chain Platform

Laravel • Angular • AWS S3 • OCR • Redis

- Developed key administrative modules for a global logistics leader, including booking management, detailed view, and vessel voyage tracking.
- Engineered a secure document management system enabling upload of invoices, packing lists, and other shipping documents directly to AWS S3.
- Integrated an OCR engine to automatically extract and verify critical data from uploaded documents, ensuring accuracy and eliminating manual data entry.
- Implemented a comprehensive party management system to streamline stakeholder communication and data organization.

### Lexplant – Law Firm SaaS

Laravel 11 • Angular 19 • GraphQL • MySQL

- Multi-tenant platform for 5+ law firms with unified GraphQL API and dynamic form rendering via Angular-Formio.

### HINO Motors (USA) – Warranty Management System

Laravel • Angular 14 • Redis • Azure Blob • MSSQL

- Streamlined defect inspection workflow for automotive manufacturer with Azure Blob for documents and Redis for caching.

### ConnectAbank – Lead Management CRM

Laravel • MySQL • Redis

- Financial CRM with SMS/email automation, OTP verification, and automated loan eligibility across banks – reduced manual effort by 50%.

### Sourcing Intel – Logistics & Quality Control

Laravel • Angular

- Built sampling, inspection, containerization, and invoice automation for international retailers.

### Buhariwalas – Inventory & Warehouse

JSP • Java • MySQL

- Comprehensive inventory tracking and warehouse management system.

### CMS Projects

Various
